NOTA

Le tinte ammesse dal Piano del Colore di Rocca, di cui alle seguenti pagine, sono state indicizzate utilizzando alcuni sistemi di codifica (HSL, RGB, ecc). **Tale indicizzazione è da intendersi principalmente quale aiuto per i professionisti, finalizzato ad una corretta rappresentazione digitale delle tinte in bozzetti e simulazioni.**

La numerazione e la denominazione delle tinte non si riferisce ad alcun produttore commerciale, quanto piuttosto alla *"Mazzetta dei Colori della Città di Torino"*, disponibile nei cataloghi dei principali produttori di vernice.
